# INDEPENDENT AUDITOR'S REPORT

To the President and Members of the Board of Trustees Village of Hebron, Illinois

# Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Village of Hebron, Illinois (Village) as of and for the year ended April 30, 2017, which collectively comprise the Village's basic financial statements as listed in the accompanying table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 1. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Village of Hebron, Illinois as of April 30, 2017, and the respective changes in modified cash basis financial position and, where applicable, cash flows thereof for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.

Our audit was conducted for the purposes of forming opinions on the financial statements that collectively comprise the Village of Hebron, Illinois' basic financial statements. The management's discussion and analysis and budgetary comparison information as listed in the table of contents as other information, which are the responsibility of management are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

# Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

# OTHER INFORMATION MANAGEMENT DISCUSSION AND ANALYSIS - UNAUDITED

Management Discussion and Analysis - Unaudited April 30, 2017

As management of the Village of Hebron (Village), we offer readers of the Village's statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended April 30, 2017.

### FINANCIAL HIGHLIGHTS

- The assets of the Village exceeded its liabilities at April 30, 2017 by \$1,787,072 (*net position*). Of this amount, \$702,109 (*unrestricted net position*) may be used to meet the Village's ongoing obligations to citizens and creditors.
- At April 30, 2017, the Village's governmental funds reported combined ending fund balances of \$565,108.
- At April 30, 2017, the unassigned fund balance for the General Fund was \$456,393.

# OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the Village's basic financial statements. The Village's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements themselves.

# Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances in a manner similar to a private-sector business.

Modified Cash Basis presents information on all of the Village's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Modified Cash Basis presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported on a cash basis as soon as cash is received or disbursed, regardless of when the underlying event giving rise to the change occurred.

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-

Management Discussion and Analysis - Unaudited April 30, 2017

type activities). The governmental activities of the Village include general government, public safety, public works and transportation, culture and recreation, and economic development. The business-type activities of the Village include water and sewer.

### Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Village's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**Proprietary funds -** The Village maintains one type of proprietary fund (enterprise fund). Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village uses enterprise funds to account for its water and sewer services. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer services, all of which are considered to be major funds of the Village.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the Village. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Village utilizes a fiduciary fund to segregate developer deposits.

Management Discussion and Analysis - Unaudited April 30, 2017

### Notes to the financial statements

Notes to the financial statements provide additional information that is essential to a full understanding of the information provided in the basic financial statements. Required supplementary information consists of more detailed data on budget to actual revenues and expenditures.

### Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain information concerning the Village's progress in meeting its obligation to provide as fully adequate as possible services to its residents.

The Village adopts an annual budget for all funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with the budget.

# GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Village, assets exceeded liabilities by \$1,787,072 at April 30, 2017. Of the Village's net position, \$973,688 reflects its investment in capital assets (e.g., land, infrastructure, buildings, systems and equipment); less any related outstanding debt used to acquire those assets. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Management Discussion and Analysis - Unaudited April 30, 2017

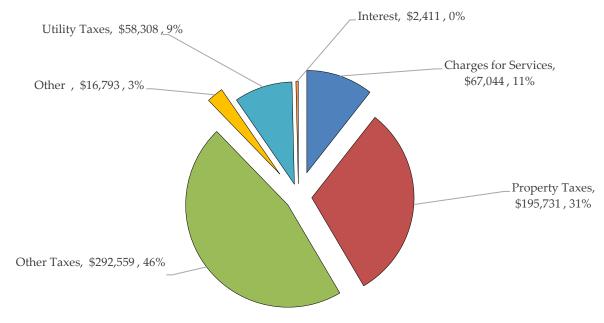

An additional portion of the Village's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$702,109) may be used to meet the Village's ongoing obligations to citizens and creditors.

At April 30, 2017, the Village is able to report positive balances in all categories of net position. Key elements of net asset activity for the year are as follows:

# 2017 GOVERNMENTAL REVENUES

# 2017 GOVERNMENTAL EXPENSES

Management Discussion and Analysis - Unaudited April 30, 2017

# FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

# Governmental funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the Village's net resources available for spending at the end of the fiscal year.

At April 30, 2017, the Village's governmental funds reported combined ending fund balances of \$565,108. A portion of this amount (\$456,393) constitutes unassigned fund balance, which is available, to meet the Village's ongoing obligations to citizens and creditors. The remainder of the fund balance is restricted to indicate that it is not available for new spending because it has already been committed for specific restricted purposes.

The General Fund is the chief operating fund of the Village. At April 30, 2017, the fund balance of the General Fund was \$456,393.

# General Fund Budgetary Highlights

- The General Fund estimated revenues exceeded the actual revenues by \$144,920.
- The General Fund estimated expenditures exceeded the actual expenditures by \$543,398.

Management Discussion and Analysis - Unaudited April 30, 2017

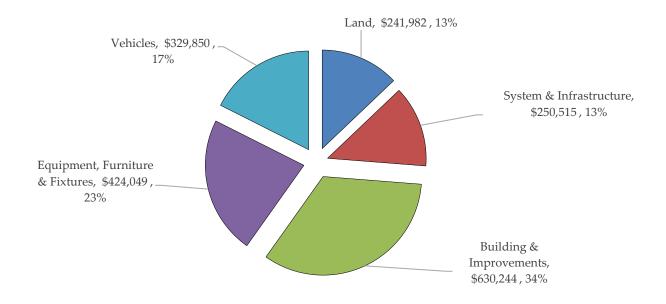

# **CAPITAL ASSETS**

The Village's fixed assets as of April 30, 2017 amount to \$5,282,941 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, equipment, vehicles, and infrastructure.

# ECONOMIC FACTORS AND PROPERTY TAXES

The equalized assessed valuation (EAV) of the Village for 2016 is \$23,292,045. That represents an increase in EAV of \$1,456,230 over the prior year's EAV. Taxes recorded in these financial statements are distributions received from the 2015 levy. A summary of the assessed valuations and extensions for tax years 2016, 2015 and 2014 is as follows:

Management Discussion and Analysis - Unaudited April 30, 2017

# Description of Current or Expected Conditions

Currently, management is not aware of any other significant changes in conditions that could have a significant effect on the financial position or results of activities of the Village in the near future. However, management continues to monitor items that may impact future receipts, especially noting a potential decline in state funds as well as losses due to the tax cap.

# Requests for Information

This financial report is designed to provide a general overview of the Village of Hebron's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Village of Hebron; P.O. Box 372; Hebron, Illinois 60034.

# NOTES TO THE BASIC FINANCIAL STATEMENTS

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Hebron (Village) was organized under the provisions of Chapter 70 of the Illinois Compiled Statutes. The Village operates under the direction of an elected Board.

The Village's financial statements are prepared in accordance with the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). The Village follows all Governmental Accounting Standards Board (GASB) pronouncements and pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 that do not conflict with or contradict GASB pronouncements; to the extent they are applicable to the modified cash basis of accounting. The more significant accounting policies used by the Village are discussed below.

# REPORTING ENTITY

The accompanying financial statements comply with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, and functions that comprise the Village. Component units are legally separate entities for which the Village (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the Village's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the Village. Using these criteria, the Village has no component units. In addition, the Village is not included as a component unit in any other governmental reporting entity as defined by GASB pronouncements.

# BASIC FINANCIAL STATEMENTS — GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund (reporting the Village's major funds) financial statements. Both the government-wide and fund financial statements categorize primary activities as governmental activities or business type. The Village's general government, public safety, streets and roads, and debt service activities are classified as governmental activities. The Village's water, sewer, and water and sewer capital development are classified as business-type activities.

In the government-wide Statement of Net Position — Modified Cash Basis, the governmental activities column (a) is presented on a consolidated basis, and (b) is reported on a modified

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

cash, and economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Village's net position are reported in three parts invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities — Modified Cash Basis reports both the gross and net cost of each of the Village's functions (general government and public safety). The functions are also supported by general government revenues (property taxes, personal property replacement taxes, foreign fire insurance taxes, unrestricted investment earnings, etc.). The Statement of Activities — Modified Cash Basis reduces gross expenses (including depreciation) by related program revenues, operating and capital grants (where applicable). Program revenues must be directly associated with the function (general government, public safety, etc.). Program revenues include charges to customers or applicants who purchase, use or directly benefit from goods, services, or privilege provided by a given function or segment. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function) are normally covered by general revenue (property taxes, personal property replacement taxes, foreign fire insurance taxes, unrestricted investment earnings, etc.).

The Village does not allocate indirect costs.

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **GOVERNMENTAL FUNDS**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The Village reports these major governmental funds and fund types:

GENERAL FUND —The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS —The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

DEBT SERVICE FUND —The Debt Service Fund is used to account for the accumulation of funds for the periodic payment of principal, interest and related fees on general long-term debt.

The activities reported in these funds are reported as governmental activities in the government-wide financial statements

# PROPRIETARY FUNDS

THE WATER AND SEWER O&M FUND —The Water and Sewer O&M Fund is used to account for the treatment of sewerage of the residents. User charges to customers account for substantially all of the revenue of this fund.

The activities reported in these funds are reported as business-type activities in the government-wide financial statements.

### FIDUCIARY FUND TYPES

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using the modified cash basis of accounting.

The Village's fiduciary funds are presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party (developers) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **BASIS OF ACCOUNTING**

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

### MODIFIED CASH

The Government-wide Statement of Net Position — Modified Cash Basis and Statement of Activities — Modified Cash Basis and the Governmental Funds financial statements, are presented using the modified cash basis of accounting.

This basis recognizes assets, liabilities, net position/fund equity, revenues and expenditures/expenses when they result from cash transactions, with a provision for depreciation in the government-wide financial statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the Village utilized accounting principles generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting. The government-wide financial statements would be presented on the accrual basis of accounting.

# CASH AND CASH EQUIVALENTS AND INVESTMENTS

Separate bank accounts are not maintained for all of the Village's funds. Instead, the funds maintain their un-invested cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund.

Occasionally certain of the funds participating in the common bank accounts will incur overdrafts (deficits) in the accounts. Such overdrafts in effect constitute cash borrowed from

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

other Village funds and are, therefore, inter-fund loans that have not been authorized by Village Board action.

The Village has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at the lower of cost or market. Gains or losses on the sale of investments are recognized upon realization.

### **INVENTORIES**

It is the Village's policy to charge all purchases of items for resale or supplies to expenditures when purchased. No inventory accounts are maintained to reflect the value of resale or supply items on hand.

### **INTERFUND ACTIVITY**

Interfund activity is reported either as loans, services provided, reimbursements, or transfers. Loans are reported as inter-fund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other inter-fund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

### CAPITAL ASSETS

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

Land Improvements	15 years
Buildings	40 years
Furniture and Equipment	5-7 years
Computer Equipment	3 years
Vehicles	5-7 years

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB Statement No. 34 requires the Village to report and depreciate new infrastructure assets acquired on or after May 1, 2004. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc.

These infrastructure assets are likely to be the largest asset class of the Village. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The Village is not required to retroactively report infrastructure.

### LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position — Modified Cash Basis. Bond premiums and discounts are deferred and amortized over the life of the bonds on a straight-line basis. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### **GOVERNMENT-WIDE NET POSITION**

Government-wide net position are divided into three components:

- 1. Net investment in capital assets, net of related debt consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- 2. Restricted net position consist of net position that are restricted by the Village's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- 3. Unrestricted all other net position are reported in this category.

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **GOVERNMENTAL FUND BALANCES**

Fund Balance Classification - The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Village is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

NONSPENDABLE - This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The Village has not classified any items as being Nonspendable.

RESTRICTED - This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the revenue note and are restricted through debt covenants. Infrastructure Projects are restricted by State Statute and County laws and are legally segregated for funding of infrastructure improvements.

COMMITTED - This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Village Board. These amounts cannot be used for any other purpose unless the Village Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Village did not have any committed resources as of April 30, 2017.

ASSIGNED - This classification includes amounts that are constrained by the Village's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Village Board or through the Village Board delegating this responsibility to the Village President through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

Notes to Financial Statements Year ended April 30, 2017

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

UNASSIGNED - This classification includes the residual fund balance for the General Fund and the amount established for Minimum Funding which represents the portion of the General Fund balance that has been established by the board to be used for debt service or in emergency situations.

### PROPERTY TAX CALENDAR

The Village's property tax is levied on January 1 of each year on all taxable real property located in the Village. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments early in June and early in September of the following calendar year. The Village receives significant distributions of tax receipts approximately one month after these dates. The 2016 levy was passed by the board on December 19, 2016.

### NOTE 2 - DEPOSITS AND INVESTMENTS

At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$819,322, and the bank balances totaled \$866,803. The Village is allowed to invest in securities as authorized by the Illinois Compiled Statutes, Chapter 30, Act 235/Articles 2 and 6. All accounts are covered by FDIC insurance.

Notes to Financial Statements Year ended April 30, 2017

# NOTE 3 - CAPITAL ASSETS

Capital asset activity for the year ended April 30, 2017 was as follows:

Balance					Balance				
Capital Assets		May 1, 2016		Increases		Decreases		April 30, 2017	
General Fund:	· <u></u>		-					_	
Land	\$	241,982	\$	-	\$	-	\$	241,982

Notes to Financial Statements Year ended April 30, 2017

#### NOTE 4 - ILLINOIS MUNICIPAL RETIREMENT FUND

#### **IMRF PLAN DESCRIPTION**

The Village's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Village's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

#### **BENEFITS PROVIDED**

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of

Notes to Financial Statements Year ended April 30, 2017

#### NOTE 4 - ILLINOIS MUNICIPAL RETIREMENT FUND (CONTINUED)

earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

#### EMPLOYEES COVERED BY BENEFIT TERMS

As of December 31, 2016 the following employees were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	5
Inactive Plan Members entitled to but not yet receiving benefits	5
Active Plan Members	4
Total	14

#### **CONTRIBUTIONS**

As set by statute, the Village's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's annual contribution rate for calendar year 2016 was 12.29%. For the fiscal year ended April 30, 2017, the Village contributed \$16,711 to the plan. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### NET PENSION LIABILITY

The Village's net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Notes to Financial Statements Year ended April 30, 2017

#### NOTE 4 - ILLINOIS MUNICIPAL RETIREMENT FUND (CONTINUED)

#### **ACTUARIAL ASSUMPTIONS**

The following are the methods and assumptions used to determine total pension liability at December 31, 2016:

Summary of Actuarial Methods and Assumptions Used in the Calculation of the Total Pension Liability

#### Methods and Assumptions Used to Determine Total Pension Liability:

Actuarial Cost Method Entry Age Normal
Asset Valuation Method Market Value of Assets

Price Inflation 2.75%

Salary Increases 3.75% to 14.50%

Investment Rate of Return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2014 valuation pursuant to an experience study

for the period 2011-2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully

generational projection scale MP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projections scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee

Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes There were no benefit changes during the year.

A detailed description of the actuarial assumptions and methods can be found in the December 31, 2016 Illinois Municipal Retirement Fund annual actuarial valuation report.

Notes to Financial Statements Year ended April 30, 2017

(1) Does not necessarily represent Covered Employee Payroll as defined in GASB Statement Nos. 67-68 (2) Source: "20-Bond GO Index" is the Bond Buyer Index, general obligation, 20 years to maturity, mixed quality. In descbribing this index, the Bond Buyer notes that the bonds' average credit quality is roughly equivalent to Moody's Investors Services's Aa2 rating and Standard & Poor's Corp.'s AA. The rate shown is as of December 29, 2016, the most recent date available on or before the measurement date.

Notes to Financial Statements Year ended April 30, 2017

#### NOTE 4 – ILLINOIS MUNICIPAL RETIREMENT (CONTINUED)

#### SINGLE DISCOUNT RATE

A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.78%, and the resulting single discount rate is 7.50%.

#### SENSITIVITY OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.50%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

#### Summary of Actuarial Methods and Assumptions Used in the Calculation of the

2016 Contribution Rate \*

Valuation Date: December 31, 2016

Notes Actuarially determined contribution rates are calculated as of December 31

each year, which are 12 months prior contributions are reported.

Methods and Assumptions Used to Determine 2016 Contribution Rates:

Actuarial Cost Method Aggregate Entry Age Normal

Amortization Method Level Percentage of Payroll, Closed

Remaining Amortization Period Non-Taxing bodies: 10-year rolling period.

Taxing bodies (Regular, SLEP and ECO groups): 28-year closed period until

remaining period reaches 15 years (then 15-year rolling period).

Early Retirement Incentive Plan liabilities:

a period up to 10 years selected by the employer upon adoption of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 22 years for most employers (two employers were financed over 31

years).

Asset Valuation Method 5-Year smoothed market; 20% corridor

Wage growth 3.50%

Price Inflation 2.75% - approximate; No explicit price inflation assumptions is used in this

Salary Increases valuation.

Investment Rate of Return 3.75% to 14.50% including inflation

Retirement Age 7.50%

Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2014 valuation pursuant to an experience

study of the period 2011-2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with

fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (based on 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with

**Other Information:** adjustments to match current IMRF experience.

Notes There were no benefit changes during the year

_	\$ 330,918	\$ 52,439	\$ 383,357	\$3,978,335	\$ 629,739	\$4,608,074

#### NOTE 7 - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During the fiscal year ended April 30, 2017 no funds had expenditures that exceeded the appropriations.

#### **NOTE 8 - RISK MANAGEMENT**

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village purchases commercial insurance to handle these risks of loss. During fiscal year 2016 there was no significant reduction in insurance coverage for any category. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The Village is insured under a retrospectively-rated policy for workers' compensation coverage. Whereas, the initial premium may be adjusted based on actual experience. Adjustments in premiums are recorded when paid or received. During the year ended April 30, 2017, there were no significant adjustments in premiums based on actual experience.

Notes to Financial Statements Year ended April 30, 2017

#### NOTE 9 – SUBSEQUENT EVENTS

The Organization has evaluated subsequent events through the date on which the financial statements were available to be issued.

#### NOTE 10 - CONTINGENCIES

The Village received a loan amendment for the IEPA obligation on April 8, 2016. During the course of the year the Village paid \$100,208 toward the accrued interest and \$30,000 toward the principal on the obligation. The total of scheduled payments for the year ending April 30, 2017 was \$100,208 in interest and \$125,729 in principal. The Village is not aware of any other pending litigation or potential non-disclosed liabilities that management believes would have a material adverse effect on the financial statements.

# NOTES TO OTHER INFORMATION

Notes to Other Information Year ended April 30, 2017

The accounting policies of the Village include the preparation of financial statements on the modified cash basis of accounting which is a comprehensive basis of accounting other than generally accepted accounting principles. The Village also prepares its budget on the modified cash basis of accounting.

Under the modified cash basis of accounting, revenues are recorded when received in cash and expenditures are recorded when the cash is disbursed. General capital assets acquisitions are reported as expenditures in the governmental funds. Proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources. Assets of a fund are only recorded when a right to receive cash exists which arises from a previous cash transaction. Liabilities of a fund, similarly, result from previous cash transactions.

Modified cash basis financial statements omit recognition of receivables and payables and other accrued and deferred items that do not arise from previous cash transactions.

Budgets are adopted at the function level in the General Fund and total General Fund expenditures disbursed may not legally exceed the budgeted amount. Appropriations lapse at year end unless specifically carried over. There were no carryovers to the following year.

The Village procedures in establishing the budgetary data reflected in the General Fund Financial Statements is presented below:

- Prior to July 15<sup>th</sup> the Village Board receives a proposed operating budget (appropriation ordinance) for the fiscal year commencing on preceding May 1<sup>st</sup>. The operating budget includes proposed expenditures and the means of financing them.
- A public hearing is conducted at a public meeting to obtain taxpayers comments.
- The budget is legally enacted through passage of an ordinance prior to July 31st.
- The Village Treasurer, in conjunction with the Board, is authorized to expend the un-expensed balance of any item or items of any general appropriation in making up any deficiency in any item or items of the same general appropriation.
- The original budget was passed on June 20, 2016 and not amended during the fiscal year.
- Formal budgetary integration is not employed as a management control device during the year for any fund.

Notes to Other Information Year ended April 30, 2017

- Budgetary comparisons presented in the accompanying financial statements are
  prepared on the modified cash basis of accounting, which is comprehensive basis of
  accounting other than generally accepted accounting principles. All funds utilize
  the same basis of accounting for both budgetary purposes and actual results.
- Expenditures cannot legally exceed appropriations at the fund level.
- All appropriations lapse at year-end.
