

Brighten up your budget

Public libraries across northern Illinois are upgrading to brighter, energy efficient LED lighting thanks to incentives and technical support from the ComEd® Energy Efficiency Program.

LEDs last longer and use 75% less energy than traditional bulbs. That means lower energy bills and less maintenance.

ComEd also has incentives on money-saving opportunities for HVAC upgrades, IT and whole-building optimization, and even new construction assistance.

Contact us today for a FREE facility assessment and get customized energy efficiency recommendations!

“Aesthetically, it looks so much better!”

—Zach Musil, Director,
Acorn Public Library, Oak Forest
