December 7, 2020

Dear Hebron Residents,

As you are all aware, a business named Hebron Quality Meats approached our Village Board in regard to opening a meat processing plant on Church Street. I had full intentions of sending a survey requesting thoughts of those who resided within village limits. Since that time, I have returned hundreds of phone messages, emails and private messages, along with answering comments made to my Kimberly T. "Kimmy" Martinez social media page.

At this time, I'd like to announce that this will no longer be on our meeting agenda nor will a survey go out.

Hebron is a farm community and those roots make us who we are. People move here for our way of life. As time moves on, everyone should expect some change and growth, but our roots will remain the same. They are the basis for our being and what attracted others to Hebron.

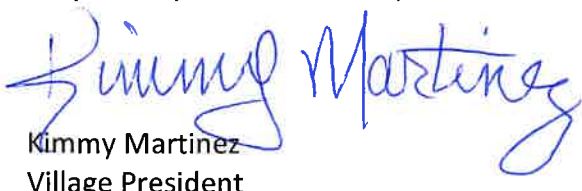

When I step on my porch each morning and breath our fresh country air, I smell many things. Freshness, sometimes a school bus or diesel from a truck and sometimes what I like to call farm scent. The most prevalent is the latter and I wouldn't change that for anything! This is Hebron, our town, our community and our lives.

I let it be known last year in no uncertain terms when a company pushing for an unsightly solar field on Route 47 just south of town wanted to come in and I will let it be known again...

**THIS VILLAGE WILL NOT BE INFLUENCED by ANY group, company or individual. WE ARE IN CONTROL OF OUR OWN DESTINY and it is the choice of those WHO RESIDE in our BEAUTIFUL, QUIANT VILLAGE.**

Additionally, this administration will always make sure any and all guidelines and permits required of businesses are adhered to. The safety and well-being of our residents is of utmost importance.

Respectfully Yours in Service,

  
Kimmy Martinez  
Village President
